

MEHRAN

Engineering and Well Services

» About Us:

MEHRAN Engineering and Well Services Co. is one of the most reputable Iranian companies in delivering full chain of petroleum engineering and field services in onshore and offshore throughout over one decade of continuous presence in the market.

With over 500 employees, more than nine tremendous operation bases in Kish island, and Ahwaz City and all latest technologies, the company serves customized innovative upstream services from engineering, design, consultancy and planning to drilling, well construction, completion and optimization in the oil and gas industry.

Immediately after being founded in 2000 by a team of highly experienced professionals, MEHRAN began its rapid development in fleet, technology, and man power. This fact alongside with the company commitment to high standard services, HSEQ policies, continuous improvement and integrated management resulted in accomplishment of many projects for international and domestic clients such as TOTAL, ENI, PTTEP, POGC, IOOC, NIDC, PETROPARS, PETROIRAN, DANA, OIEC, NIOCEXP, ICOFC, etc.
